NEKENDER SHEKHAWAT

AI ENGINEER | AI AGENTS | PYTHON BACKEND ENGINEERING

Bengaluru, India | +91 8949965534 | nekender02@gmail.com | linkedin.com/in/nekender-shekhawat

PROFESSIONAL SUMMARY

AI engineer and technical co-founder with 3+ years of experience shipping LLM applications, AI agents and production Python systems. Took Othor AI from its initial engineering build to a deployed decision-intelligence platform, owning backend services, agent workflows and AWS operations.

PROFESSIONAL EXPERIENCE

Othor AI | Bengaluru, India (Remote) — Sep 2024 - Present

Co-Founder & CTO Jan 2025 - Present

Founding Engineer, AI/ML Sep 2024 - Jan 2025

Othor AI is a decision-intelligence SaaS product. Teams connect their business data to discover KPIs, receive AI-generated performance insights and ask follow-up questions through natural-language chat.

- Architected and implemented **9 Python and FastAPI backend services** for authentication, organizations, data connectors, metric discovery, narrative generation and chat.
- Built **agent workflows for metric discovery and business insights** that inspect connected datasets, calculate KPIs and generate narratives grounded in source data.
- Shipped **KPI dashboards, forecasting views, a narrative feed, data chat and alerts** as a single product experience. Contributed the largest share of frontend code.
- Developed a **Google Drive Document Intelligence agent** to group files, track baselines and generate structured business briefs from documents.
- Operated production infrastructure on **AWS ECS Fargate, RDS PostgreSQL and CloudWatch**. Owned deployment, incident troubleshooting, observability and security controls as acting CISO.

Giboo | New York (Remote) — Apr 2024 - Aug 2024

Software Engineer Intern

- Integrated **retrieval-augmented generation (RAG) and LangChain** into Python APIs to return LLM answers grounded in retrieved content.
- **Cut cloud costs by 25%** by moving LLM workloads to Runpod and long-running SageMaker jobs to EC2.
- **Increased available contact data by approximately 70%** with Spark and PySpark pipelines and Jenkins crawlers. Optimized one processing path from $O(n^2)$ to $O(n \log n)$.

Appbay Technologies | Jaipur, India — Nov 2023 - Mar 2024

Associate Software Developer

- **Reduced manual operational work by approximately 80%** through application and database workflow automation. Supported release documentation and delivery.

Partnr Network | Bengaluru, India (Remote) — May 2023 - Nov 2023

Data Science Intern

- **Expanded the job-listing pool by approximately 60%** through automated web-data collection and recommendation pipelines.

TECHNICAL SKILLS

AI and LLMs AI agents, LLM applications, RAG, LangChain, prompt engineering, Transformers, NLP

Backend and Data Python, FastAPI, Flask, REST APIs, SQL, PostgreSQL, MongoDB, Spark, PySpark

Machine Learning Scikit-learn, TensorFlow, Pandas, recommendation systems, data pipelines, model evaluation

Cloud and DevOps AWS ECS, EC2, RDS, S3, IAM, VPC, CloudWatch, Azure, Jenkins, CI/CD, Git, Linux

EDUCATION

Poornima University | B.Tech, Computer Science (Data Science specialization) — 2020 - 2024

Recognition Othor AI selected for the NASSCOM India GenAI Foundry Top 40.

Training Internshala Data Science Specialization (91%).
